Flatpicked Guitar & Mandolin Musica at homea at naturea Photography at Places We’veÃ¤ Beena at FlatpickedÃ¤ Guitar & Mandolin Musica at Musica Festivals at Familya History We are Mike Stangeland and Kim Davis and we all play guitar and Mike plays Mandolin. We play mainly traditional violin tracks, bluegrass, old-time and a small Celtic and blues. Most of the tracks on this page were arranged by Mike and/or Kim for flatpicked guitar and mandolin. These are the songs we play or I hope to learn over time. These aren’t final versions, chords are just the way we play the songs. We decided to publish them on our website because we think they might be useful for beginners and intermediate level players and mandolin players. They are offered for purely educational purposes; Nothing is for sale. We hope you enjoy it as much as we enjoyed making them! Our tablature is all in TableDit format. You can download the free tabluit viewer to view and print our tabluit files.Â¢ If you want to arrange and compose your tracks in TableDit format, in addition to transposing to different keys or converted into different tools, you can download the full version, which costs about $55 USD to register. Click on the icon below to visit the TableDit website. We’ll be loading more tracks as the tempo continues, so check again soon. Click here to download the full Tune Library (ZIP file) Find the tablature alphabetically (if a song name starts with “the”, you will find the file under the first letter of the second word in the name.) Mike Stangeland for guitarrthis Tune was transcribed from a mandolin recording by Dakota Dave Hull and Kari Larson on the CD “Double Cappuccino”, then arranged for guitar. It is a traditional Spanish waltz, very solitary and disturbing. He looks wonderful on guitar. Dakota Dave and Kari Larson are some of our favorite players, their recordings handle the range from the traditional swing, highly recommended! Check-out “Moonbeams”, “La vittoria di Hull”, “doppio cappuccino” and “Raguccino” di Spades Key A (giocato Capo 2, G position) Â Ã Ã Ã
