The battery symbol shows the remaining battery charge. The larger the colored part of the symbol, the higher the performance. The network mode icon shows the network mode currently used by the mobile phone. What does the circle symbolize? The circle is a universal symbol with far-reaching meaning. Represents the concepts of abundance, abundance, original perfection, the self, infinity, eternity, timelessness, all cyclical motion, God (God is a circle whose center is everywhere and whose circumference is not from nowhere (Hermes Trismegistos)). What does a Celtic cross look like? The Celtic cross, an island pen, is actually a Latin cross with a halo surrounding the junction of the arms and torso. The shape, typically decorated with tracery and other island art motifs, became and remained popular for gravestones and other uses far beyond Ireland. What is the cross of Odin? What is an A surrounded by a circle in my car? Pressing button A does not stop the engine when the vehicle is stationary. When the button light is on, the system is off. Note that it will only deactivate until you manually turn off the engine. How do I deactivate sleep mode? In 2021, if you want to change the colour of the button, then you need to use the app:tint property over android:tint. Also, I recommend using app:srcCompat over android:src for better support of vectors. For better accessibility support, it's important to use the android:contentDescription attribute. Finally, you can use built-in drawables by using the @android:drawable/ prefix. Putting it all together: EDIT 2 No need to use app:backgroundTint juse USE android:scaleType="center" in your FloatingActionButton it will work OUTPUT Try this android:src="@drawable/add_plant"
