Psychological Report

Name: June Frederick
Age: 30 years

Date(s) of Examination: 8/8/98, 8/12/98.

Examiner: Philip Witt, Ph.D.

Reason for referral:

Mrs. Frederick was referred for a psychological evaluation by her attorney, Fred Edwards, Esq. In 1994, Mrs. Frederick gave birth to a son, William; in the process of a difficult delivery, requiring suction to assist the birth, the baby sustained brain injury. William lived for two weeks, and after various measures died of complications secondary to the brain injury. Mr. Edwards requested an evaluation as to the psychological effect of William's death upon Mrs. Frederick.

Sources of Information:

- (1) Individual interview of June Frederick (8/8/98).
- (2) Review of materials provided by Fred Edwards, Esq., including depositions of June Frederick and John Frederick (husband); work performance evaluations of June Frederick; pediatric and hospital records regarding William Frederick; reports of Alan Mitchell, M.D. (medical expert for plaintiff).
- (3) Telephone interview of Christine Jacobs (friend of Mrs. Frederick) (8/12/98).
- (4) Telephone interview of Wendy White (Mrs. Frederick's sister) (8/12/98).
- (5) Telephone interview of John Frederick (husband) (8/12/98).
- (6) Psychological testing:

Medico legal report clinical psychologist. Industrial psychologist medico-legal report. What is a medico legal report.

Specialist in Mind offers a panel of Expert Psychiatrists and Psychologists, many of which are considered among the best in their field with the experience needed to provide high-quality medical-legal reports. Experts often provide reports that contribute to the outcome of a process. Finding the right medical expert can be critical to the outcome of your case. That's why we've got stress for you. It may seem like a mined field looking for the right expert for your case, which will provide you with the best legal medical evaluation and legal report. At Expert in Mind, we offer a panel of expert psychiatrists and psychologists who are well versed in providing their expert medical opinion in law. Personal service and efficiency is critical in Expert in Mind. We build close working relationships with all our Experts, so that when there is an inquiry, we are able to suggest the right expert for your case to provide you with the best legal medical report. In addition, each Specialist in our panel has its own Case Manager which will be well informed about all of your case load and its complexities. The approach adopted by Expert in Mind is to build close working relationships with all our Experts, so that after an inquiry and discussion, we can advise a potential instructor on the Expert right for a particular case. The factors to take into account, in addition to the professional qualifications required, are the Experts to the interpersonal expertise, their experience, their location and their reliability. Each expert in the panel is assigned his own personal assistant who alone provides additional benefits to instruct through Expert in Mind. This means that if an instructor party calls to discuss a case, he or she will speak to the case manager who is familiar with the Expert @ s entire cases and the complexities of each case. Service and efficient is imperative in Expert in Mind, ensuring that the 'Mendes-152 approach; call centre à-left' is isWe are pleased to accept both privately funded instrumentations and public funding instruments for which our experts work in the Legal Aid Authority with codified fees. Our panel of psychiatrists and psychologists has a vast experience in providing opinion on the basis of © legal liability in cases of personal injury to insurance companies as well as to legal representatives of the applicants and the frogs © us. The definition of Personal Injury © "any illness and any disability of a person's physical or mental condition" (s.38, 1980's Limitation Law). In order for a case of personal injury to be relevant in relation to psychiatry, it must be proved that the Applicant suffered a "recognisable psychiatric illness". Only a few of the areas covered are the following: psychological trauma after a car accident, workplace or public place. Anxiety/ Depression Districts in adults and children. Stress Traumatic Peak Distraction (PTSD). Sexual dysfunction after trauma. Historical assessments of child abuse. Neuropsychiatry assessments. Treatment recommendations. Victims of crimes or abuse. Discrimination of persons with disabilities. The IQ and the mental capacity. Work related stress. Munchausen! Bullying! We offer specialized neuropsychological and neuropsychiatry assessments in cases where an individual may have a brain injury or has suffered cognitive difficulties (e.g. memories, memories © The evaluation provides a detailed description of the level of cognitive impairment, if present, as well as the psychological impact of the slug. The neuropsychologist/ neuropsychiatrist administrator will identify the treatable symptoms, as well as those who require a management. © the violation of a legal duty of care due to one person by another, which results in damage caused to that person. A CLINIC (often called medical neglect) can involve the proper psychiatric neglect in relation to the treatment of psychiatric diseases. Alternatively, alternative. It may involve an assessment in relation to the psychological consequences of other medical neglect traumas, such as neglect in relation to surgery, medication, diagnosis, treatment delay, psychiatric care, psychotherapy, counseling and childbirth (including fetus damage). It may also include things that have not been made that they should have been made, as it does not give a person the treatment they need, or not warn about the risks of a proposed treatment. Psychiatric injury is the legal term used by court. It should be a recognized psychiatric lesion, such as pose-traumatic stress disorder (TPT), anxiety disorder or adjustment disorder. We have a series of experts in our panel that have extensive experience in clinical neglect relatives. Some of our experts are not only experienced in providing evaluations for asylum immigration, but they are fluent in a second, third and for fourth tongue. Although happy to work with an intention, if an individual is able to talk in his maternal language during an evaluation, he often allows them to feel more comfortable to discuss issues of such sensitive nature. There is a sane of reasons that may require a psychological or psychiatric evaluation; it may be that an individual is afraid of his own security or his family, to return to his natal country, or has been a vast of abuse and / or torture, resulting in a psychiatric disorder, such as the pale stress (TPT). The most frequently covered areas are: psychological impact of the deportation or detention of a subject or family. Evaluation of the IQ / mental capacity. Stress disorder. Evaluations of age. Diagnostic and treatment recommendations. Our psychiatrists and psychologists experiment witnesses have extensive experience in providing medical-legal relatives on parents, children and family in the process of public and private family law. Just a few of the areas include: abuse of the substance and a) Drugs, alcohol, gambling, etc. ADHD / Aspergers / Autism in adults or children. Positioning/separation options between brothers. Personality disorders / bi-polars. Mental health assessments. Global family assessments. Gender reviews. Sexual risk of children. Learn disabilities. Trauma and/or PTSD. Family reviews. Cognitive test. Domestic violence. Risk assessments. Mental capacity. Munchausen! Attachments. Neglect. Abuse. Many of our experts have experience in providing independent psychiatric and psychological reports in criminal cases, both for the Prosecutor of the Crown and for defense. Often these evaluations should be carried out in custody, which our experts are pleased to enforce. Areas most often covered are: Evaluation of learning/deficiency difficulties, including the Autistic Diseases of the Spectrum. Pre-Sentence Reports & Probation Reports. Evaluation of criminal liability. ABE's revisions and reports interview. Mental health assessment panels. Ability to be judged. Personality disturbances. Risk assessments. Adjust for Plead. Mental capacity. Ability.
