HELIPORT PLANNING & DESIGN (ICAO ANNEX 14 VOL. 2 & EASA CS-HPT-DSN)

ICAO Annex 14 Heliport Design Workshop - HeliEgo 2006

Doc 9261

Heliport Manual

Fourth Edition, 2020

Approved by and published under the authority of the Secretary General.

INTERNATIONAL CIVIL AVIATION ORGANIZATION

ICAO formed a new Aerodrome Panel (AP) in December 2004 which absorbed the Visual Aids Panel (VAP) and 'formally' disbanded the HDSC. The HDSC was replaced with a new Heliport Design Working Group (HDWG) incorporated under the new AP. A new Visual Aids Working Group (VAWG) also formed.

...no real impact on the 'Annex 14 revision'...except HDWG and VAWG reports to the Aerodrome Panel (AP). The AP covers all 'Annex 14 aspects' except IFR/IMC airspace which is still handled by the 'Helicopter Sub-Group' of the Obstacle Clearance Panel (OCP).

ICAO Annex 14 Heliport Design Workshop - HeliEgo 2006

Home Shop by Areas Safety Flight Safety Heliport Manual (Doc 9261) Annex 14 of the Convention on the International Civil Aviation Organization contains basic standards and recommendations (SARPs) for aerodromes. Annex 14 refers to various manuals, procedures and circulars. The annexes can not be printed due to copyright restrictions. The ICAO offers on its website (see the link annexes to the ICAO Convention / Additional Information) printed and digital subscriptions available commercially available. The publication of the following documents serves as an illustration and authority does not assume any responsibility for its correction or integrity. ICAO DOC 9137 ICAO Service Administration Manual 9157 (PDF) ICAO Systems Management Manual (PDF) 911 (ICAO Systems Management Manual) News - The Course integrates the new requirements of the July 2020. New - The Course Integra New Heliport Manual: Part I, Terrestrial heliports 2020 and Part II, Terrestrial Heliports of 2021. ICAO Annex 14, Volume II of the Chicago Convention of 1944 contains the recommended standards and practices that define the physical and operational characteristics that must be provided on the heliports. Participating in this course allows assistants to interpret and apply the specifications of Annex 14 and other orientation materials (ICAO Heliport Manual Doc. 9261) related to the superficial and high level heliports, as well as helimats and on-board heliports. Based on the best practices, participants will acquire knowledge on how to configure, dimension and design the fundamental elements of heliport infrastructure, including elements such as the final focus and take-off area (FATO), underground heliports and terrestrial taxi circuits, visual aids (light, marks and signs), restriction and elimination of obstacles. In addition, this course focuses on the theoretical and practical history of the requirements mentioned above and, in case of non-compliance with the requirements, in the application of possible mitigation measures. This 4-day course is directed to the aviation staff that participates in the planning or operations of the Helipareto, including engineers and architects, inspectors of the Aviation Authorities and audit staff in charge of monitoring compliance with the infrastructure of the Helipareto and Aerodrup with applicable standards. Regulations Annex 14 of the Convention on the International Civil Aviation Organization contains the basic standards and recommendations (SARPs) for the aerodromes. Annex 14 refers to various manuals, p rocedures and circulars. The annexes may not be printed due to copyright restrictions.
