AdBlock is the best ad blocker with over 60 million users and one of the most popular Chrome extensions with over 350 million downloads! ========== FEATURES - Block pop-ups, ads and annoying banners (even remove video ads!) on YouTube. , Facebook , Twitch and all your favorite sites â Block third-party trackers and protect your privacy â Browse the web safely by blocking malicious ads with malware,and cryptocurrency miners Reduce page load times and enjoy faster internet. Customize your experience with filters, whitelists, dark mode, and more colorful themes Back up and sync your whitelists and custom ad blocking rules in your Chrome profiles - Use custom block ads by replacing some ads. with pictures of cats, dogs and landscapes. â Get fast, friendly support from the AdBlock team and an extensive help center ========== ========== ABOUT AdBlock free ad DOWNLOAD ad blocker for blocking anywhere on the web. AdBlock also protects your browser from malware and blocks advertisers from accessing your browsing history and personal information. AdBlock for Chrome works automatically. Just click "Add to Chrome" then visit your favorite website and watch the ads disappear! Choose whether you want to continue seeing unobtrusive ads, whitelist your favorite sites, or block all ads by default. AdBlock participates in the Acceptable Ads program, so it doesn't block non-intrusive ads by default to help websites. We believe that users should be in control of what they see online, so you can easily opt out in your AdBlock settings. ========== NOTIFICATIONS * Notifications about accessing history and website data will be generated automatically because AdBlock works on every tab. But it does NOT actually monitor your browsing history or require personal information to function properly. Read any Google Doc, PDF, website, or book with text-to-speech (TTS) functionality. Natural-sounding voices in over 30 languages and 130 voices. With Speechify's text-to-speech feature, you can listen to documents, articles, PDFs, emails, and more—whatever you're reading. This is one of the fastest growing speech generator extensions in the Chrome Store. Millions of satisfied users trust our TTS speech synthesis technology to listen to different languages and accent natural-sounding speech. Our users heard 6.5 billion words. == Text to speech== â¤ Listen at any speed Read up to 4.5x faster â 900 words per minute. Our high quality AI voices can read 4.5X faster than average reading speed, so you can learn even more in less time. While it's not easy to hear 900 words per minute, we're not stopping you from realizing your full potential. â¤ Listen on your computer or mobile device. Everything you have stored in your Speechify library is instantly synced between devices, so you can hear anything, anywhere, anytime. Saved artifacts are synced to the cloud and are available across all your devices. Don't forget to install our mobile app on your Android or iOS device. â¤ Human Voices Our voices sound smoother and more human than any other AI reader, so you can understand more and remember better. â¤ Found a screenshot with sound Image with text? Take a picture and let Speechify read it out loud. With one click, you can easily take a screenshot and sync it to the cloud. â¤ Floating Widget The Floating Widget is always there when you need it. Move it, dock it or hide it completely. • Additional Features • Active backlight for easy reading. â¢ Built-in player seamlessly integrates with all websites for easy and quick access. â¢ One subscription and easy syncing across all your devices. == How Speechify works == â¢ Speechify scans the active tab in your browser and translates the content into the most human voice in real time. â¢ Works great with Gmail, Google Docs, Word Docs, PDFs, Twitter, Wikipedia entries, blogs, news publications and any website you visit. It's perfect for school, work, e-learning, second language learning and casual reading. • You can photograph any text, import it into the app and read it aloud. With over 130 voices in different languages to choose from, find the right one for you. Some voices are very recognizable. For example Mr. President and even officially licensed Gwynethvoice is one of our users' favorites. == Use Cases == Speechify was originally created with one purpose: to help with dyslexia. But the use case for our Top Votes app exploded. Whether you love to read, struggle with reading, or struggle with reading, Speechify is for you. ➤ Students of all grades read faster and remember much more. Listen to your notes or textbook and follow them, stimulating your auditory and visual senses. ✓ The Speechify application for people with disabilities was created by Cliff Weitzman, who struggled with dyslexia. This helped him succeed in his studies. ➤ People who struggle with vision problems or injuries that prevent them from reading. Other disorders such as dry eyes, migraines, TBI, or any medical condition that interferes with reading. Our mission has always been to remove barriers to reading. ➤ Professionals such as lawyers and doctors Professions that require a lot of reading, such as lawyers, doctors, editors, etc., can quickly read important case materials and familiarize themselves with their work faster. • Storytime Parents can use text-to-speech to read their children's favorite books at home or on long car trips. You don't need to turn on the iPad or watch a movie to entertain your kids. They can listen to their favorite stories over and over again. Reading has been shown to have a significant impact on early childhood development. Let them read. ✓ Productivity Gadgets Save time by reading everything quickly. No more long letters. Use Speechify to automate your life. Speechify works great with Notion and other productivity tools. ➤ People who like podcasts. Reading your favorite blog, newspaper article, or long PDF, but time to exercise? No problem. Just press the play button and Speechify will convert your typing into speech. ✓ Avid readers Those who work with Google Docs. Read and share the audio version of the document efficiently.
