Bioresource technology reports impact factor 2019

Editor-in-Chief: Changgen Feng
Journal Metric: ScitecScore: 4.5
Cites: 2020: 4.5
CetScore: Measures The average quotes received for Peer-Reviewed document published in this title. The CitScore values are based on quotation counts in a four-year range (for example 2017-2020) to peer-reviewed documents (articles, revisions, document documents, data documents and book chapters) published in the same four years of Calendar, divided by the number of these documents in these same four years (eg 2017, 2020). 2017 quote parts (Scopus, 2021) Impact factor: 3.172
Impact factor: 2020: 3.172
The impact factor measures the average number of quotes received in a particular year by documents published in the journal during the previous two years. PEI quotation reports (Clarivate Analytics, 2020) Impact factor of 5 years: 3.129
Five-Year Factor Factor: 2020: 3.129
To calculate the five-year impact factor, quotes are counted in 2020 to 2020 a previous five years and Divided for articles of origin published in the previous five years.
Journal Citation Reports (Clarivate Analytics, 2020) Source Impact Normalized for Paper (SNIP): 2.030
Source Impact Normalized for Paper (SNIP): 2019: 2.030
snip Measures Contextual Impact of the Quote with The weighting quotes based on the total number of quotes in a field subject.
Scimago Journal rank (SJR): 0.560
scimago Journal Rank (SJR) 2019: 0.560
sJR is a prestigious metric based on the idea that not all quotes are the same. SJR uses a similar algorithm as the degree of Google Page; Provides a quantitative and qualitative measure of the impact of the diary.

Call for papers: bioenergy: A sustainable solution for carbon neutrality: a special problem of bioresources and bioprocessing for WBS2021: the 12th international symposium bioenergy (http://wbs2021.csp.esience.cn)
Guest Editor: Dehua Liu, Xuebing Zhao, Wei du, Zhen Chen
bioresources and Bioprocessing (BioB) plans to publish a special question with the topic of sustainable solution "Bioenergy: A sustainable solution for the Carbon neutrality". This special problem is connected with the 12th International Symposium Bioenergy (WBS2021,), which will be held in Nanning, in China during the 19th - 21 November 2021. All participants in this exciting Symposium is cordially invited to present their original research articles, including rapid communications or mini-reviews for this open but free newspaper, which is published by the Natural Springer group and sponsored by the laboratory Bioreactor Engineering State Key (China). The impact factor of this biotechnology magazine based on China and Ski-indexed is quick rapid, with an impact factor of 4,578 starting from 2020. Both Reviews and research articles are Welcome. The topics of interest include, but are not limited to: state and perspective of biofuels policy and the biofuel market fuel technology of ethanol (1st and 2nd generation) biology of Metabolic systems and engineering for biofuels and modeling and metabolic simulation of biomass and simulation for biofuels and biomass-based chemicals
Biodiesel technology Pretreatment and biomass biomass polymers and materials Biobased polymers and materials Biorefining Technology LCA of biofuels all documents and information Additional (if present) must be sent online (and prepared according to the bioB guidelines (). The authors should indicate that the document is presented for the special problem in their presentation letter and is not published or into consideration publish All requests will be subject to Peer review as soon as possible acceptance for publication in BioB which is now free and highly accessible / quoted by readers around the world. The date open for the presentation to the special number of WBS2021: from now on: Until expiry: 15 December, 2021. Wy: Wietone 21 noisy safe. We support all top quote styles like APA style, APA, Style, Vancouver style, Harvard style, Chicago style, etc. For example, in the event of this diary, when you write the card and awards AutoFormat, it will automatically update your article according to the bioresource technology quotation style.
