Corporate finance fourth edition. Corporate finance 4th edition.

***A NEW EDITION is now available. Auto-Graded Excel Projects use proven, field-tested technology, allowing instructors to seamlessly integrate Excel problems into their course. To be successful, students need to master the core concepts and learn to identify and solve problems that today's practitioners face. Common Mistakes boxes alert students to frequently made mistakes stemming from misunderstanding core concepts and calculations—in the classroom and in the field. Specific Content Changes Material that addresses the implications of negative interest rates has been added throughout the book. Coverage describes the ongoing changes to how stocks are traded worldwide. Printing enhancements include: a more pen-and-paper-friendly layout of exercises; the ability for instructors to choose whether to print the header; to include an honor statement; and to print with answers in line, after each question, or on a separate sheet. About the Book Coverage of The Latest Developments in the Field UPDATED! Focus on the 2007–2009 Financial Crisis and Sovereign Debt Crisis. Throughout Corporate Finance the authors connect finance concepts to practice. NEW! Auto-Graded Excel Projects use proven, field-tested technology, allowing instructors to seamlessly integrate Excel problems into their course. Specific Content Changes NEW! Material that addresses the implications of negative interest rates has been added throughout the book. NEW! Coverage describes the ongoing changes to how stocks are traded worldwide. Fundamentals of Capital Budgeting 9. Many questions involve the use of Internet resources and Excel techniques. Study Aids with a Practical Focus. An Emphasis on Core Financial Principles to Elevate Individuals' Financial Decision Making Berk and DeMarzo's Corporate Finance uses a unifying valuation framework, the Law Of One Price, to present the core content instructors expect, the new ideas they want, and the pedagogy their students need to succeed. Capital Markets and the Pricing of Risk 11. Practice Finance to Learn Finance. Working problems are the proven way to cement and demonstrate an understanding of finance. Concept Check questions at the end of each section enable students to test their understanding and target areas in which they need further review. End-of-chapter problems written personally by Jonathan Berk and Peter DeMarzo offer instructors the opportunity to assign first-rate materials to students for homework and practice with the confidence that the problems are consistent with chapter content. Financial Distress, Managerial Incentives, and Information 17. End-of-chapter problems. Later, the structure of Part IV is flexible and allows instructors to opt for brief or comprehensive coverage of the topic. Emphasis of Capital Budgeting and Valuation. Corporate Finance: The Core systematically uses: Notation Boxes: Each chapter opens by defining the variables and acronyms used in the chapter as a 'legend' for students' reference. Timelines: Introduced in Chapter 4, timelines are emphasized as the important first step in solving every problem that involves cash flows. Numbered and Labeled Equations: The first time a full equation is given in notation form it is numbered. About the Book Methodology that Connects Theory to Practice The Law of One Price: A Unifying Principle of Valuation. Students, if interested in purchasing this title with MyFinanceLab, ask your instructor for the correct package ISBN and Course ID. For example, Chapter 16 is a full-chapter treatment of the effects of financial distress, agency issues, and asymmetric information on the firm's choice of capital structure. Modern Practice. The Law of One Price is used as a framework, reflecting the modern idea that the absence of arbitrage is the unifying concept in valuation. Printing enhancements include: a more pen-and-paper-friendly layout of exercises; the ability for instructors to choose whether to print the header; to include an honor statement; and to print with answers in line, after each question, or on a separate sheet. PART 1: INTRODUCTION 1. Select in-text graphs and figures that cover topics such as bonds, stock valuation, NPV, and IRR have been digitally enhanced to allow students to interact with variables to affect outcomes and bring concepts to life. One of the hardest parts of learning finance is mastering the jargon, math, and non-standardized notation. Problems can be assigned by professors and completed online by students. Helpful tutorial tools, along with the same pedagogical aids from the text, support students as they study. Click on a series title to see the full list of products in the series. Introduction to Financial Statement Analysis 3. This methodology directly connects theory to practice, and unifies what might appear to students as disparate topics that comprise the course syllabus (corporate finance, investments, and valuation). Options for Teaching Risk and Return. The first, which appears in Chapter 8, focuses on cash flows, while the second stage focuses on capital budgeting and valuation in the real world in Chapter 18 and the capstone Chapter 19. If you're looking to RENT for Corporate Finance: The Core, 5e, click here. Using the no-arbitrage concept, the reasoning behind evaluating risk relative to a benchmark is explained conceptually and allows for use of the concept of risk and return in early chapters. Students can also continue to upload images such as phone photos of handwritten work. The videos focus on core topical areas, including capital budgeting, mergers and acquisitions, and risk and return. Finance in the News provides weekly postings of a relevant and current article from a newspaper or journal article with discussion questions that are assignable in MyFinanceLab. Live news and video feeds from The Financial Times and ABC News provide real-time news updates. Author Solution Videos walk students through the in-text examples using math, the financial calculator, and spreadsheets. Investor Behavior and Capital Market Efficiency PART 5: CAPITAL STRUCTURE 14. This product is part of the following series. Estimating the Cost of Capital 13. Valuing Bonds PART 3: VALUING PROJECTS AND FIRMS 7.
