How to make activity background transparent in android. Android make activity transparent programmatically. Android create transparent activity.

List your company in the manifest as follows and add a transparent background to the layout as follows ? Xml version="1.0" encoding="UTF-8"?> Edit: I think it's used to open a transparent activity and end the previous activity. ;end(); Remove your new activity as well from here and add previous activities like this Intent Intent = new Intent(McOntext, Younetwactivity.class);Startivity(Intent);I hope I can help you.. If your business needs to grow from Apperome, you can create a personalized Create a style for your activity True @Android: Color / Transparent @null Edit: Edit: Edit: I think you are using it to open a transparent activity. It interrupts your previous activity = new Intent(McOntext, YouNeWaltwactivity.class); starting(intent); here then new Activity, completing previousActivities , like this target Intent = new Intent(McOntext, yournewactivity.class); startAction(intent); hope that helps. > True @Android: Style/Animation True > @Android: Color/Transparent and default activity Description < Action Android: name =". Your activities would be extended from AppCompat, just change your activity theme in this thing. way.
