Split PDF See article Content Figures & Tables Video Audio Supplemental Austere data Cynosrgic teams have implemented as an important support element for military operations, at least since World War II. Dr. Charles Rob organized and led the first circling unit in the British Exchange, including Jumps.1 Two Combat Other General Surgeons Páva-Falls or were inserted by the discharge Amphania to provide support for Nazi resistors Because enemy Lines.2.4 The US Army Ahead the surgical teams were first placed at the beginning of 1990 in response to lessons learned from the US-led invasion of Granada in 1983 and invasion of Panama in 1989 and recognized need for a small, easily highlighting surgical unity. In the Poca of the Iraqi Freedom operation, US RCITA attacking circlcal teams accompanied by troops from the beginning of combat operations, including the insertion of parachute in northern Iraq With the 173 Airborne Brigade Combat Team.5in last few years, great implantations of troops have drawn, while special implementation of operations increased to remote locations around the world.6 with smaller number of personal harm s, The requirement of major medical units decreased, while demand grew to far-front circles with smaller footprints and greater mobility in useful places. Other important factors that feed the need for small surgical teams is the US military response to the golden mandate hours to provide the surgical care for patients within 60 minutes of Wounding7 and the recognized bleeders of torso non-compressible bleeding (NCH) as the biggest cause of avoidable deaths á €
